

## **Matthew Wallace, P.E.**

Matt graduated from North Carolina State University with undergraduate degrees in Environmental Engineering and Civil Engineering in 1994, and a Master of Civil Engineering in 1995. After graduation he started his career with MACTEC Engineering and Consulting, Inc., then known as LAW Engineering and Environmental Services, Inc., and is currently a Principal Engineer and Project Manager with the firm in Asheville. Environmental project experience includes preparation of Stormwater Pollution Prevention Plans and Spill Prevention, Control, and Countermeasures Plans, as well as assessment and remediation of petroleum, solvent, and pesticide contamination sites. Matt also serves as a regional contact for a nationwide big-box retailer and a nationwide hotel chain for providing engineering support of stormwater system/pond modifications and intense maintenance/rebuilds.
