- Exercise/Drills for the Emergencies
- Revise and Repeat for Continuous Improvement

Curriculum Vitae

of

Steve Naylor

EnviroSafe Consulting & Investigations, Inc.

Professional Background

Currently serves as Vice President for EnviroSafe Consulting & Investigations, Inc. Steve has over 20 years experience in the chemical industry and functions as a Hazardous Materials trainer, responder, and consultant. He has served on an EPA Level III Hazardous Materials Response Team for nineteen years, the past twelve in the capacity of Training Officer / Deputy Director. Steve has developed numerous Hazmat training programs in accordance with NFPA 471, 472 and OSHA 1910.120(q). Steve has responded to, commanded, and mitigated numerous chemical emergencies and has written many plans such as Emergency Action Plans, RCRA Contingency Plans, Emergency Operations Plans, Continuity of Operations Plans, and Bioterrorism/Terrorism Plans.

Steve coordinated a Health and Safety program for a large chemical company. The program included Mock OSHA Audits, a Proactive Safety Committee, Industrial Hygiene evaluations, JSA's, MSDS development, Hazcom training, LOTO training, LP Gas training, Lab training, DOT training, Confined Space training, Confined space rescue training, Bloodborne pathogen, and Forklift training. Steve has worked with NCDOL on several occasions and was instrumental in ascertaining the Million-hour Safety award.

Steve has worked with private industry, local municipalities, and the Healthcare industry to develop top-notch Health, Safety, Environmental, and Hazardous Materials / Emergency Preparedness programs.
